

BFA Training Activities

BFA Advisors Training Course

A professional development course for those people interested in pursuing a career as an advisor, consultant or trainer in the Organic sector.

About the course:

BFA offers the leading organic advisors course in Australia that provides professional training for those people interested in pursuing a career as an advisor or consultant to the rapidly growing organic sector.

Upon successful completion of the course you will obtain a Certificate of Attainment. Successful completion of this course ensures you should have a deep understanding of the Organic industry, Organic production systems and of Organic certification programs in Australia. In particular you will understand the Organic Standards that underpin the Australian organic industry. This will enable you to advise clients who are either already organic or making a change to organics while ensuring they meet relevant Organic requirements at all times.

Upon successful completion of the course you can apply for endorsement from BFA, one of Australia's leading organic organisations, and use the BFA logo on business cards etc.

The course is taught in an action learning environment with group activities and practical scenarios on real certified operations. Assessment is a combination of tasks, a practical assignment and an examination.

Course Topics include:

- Principles of Organics
- The organic industry: National and International
- Organic Certifications Systems
- Organic Quality Assurance
- Organic Management Systems
- Organic Inputs
- Managing the change to organics

Course Details:

Where: The course runs for 4 days and is held in various locations around Australia.

When: Usually it is run twice a year.

Who: Prior knowledge and experience is required to attend this course. Applicants are expected to have either 5 years industry experience in agriculture (or natural resource management) and/or in food processing OR two years experience in these areas along with tertiary qualifications in agriculture, food science, management or a related field.

Cost: The course cost is \$1275.00 incl GST; this includes course materials, morning and afternoon tea and lunches.
