

## ALLOWED PRODUCTS

Growers have an ever-increasing list of products they can use in organic systems. If the input you wish to use is not listed here, it is recommended that you apply to your certification body for permission to use that product. If you have a product you wish to be listed here, contact the BFA on (07) 3350 5716 for information on registering your product as an allowed input.

### Activators & Microbials

# Putting life back into the land

**Aeromaster  
TE500  
Compost  
Tea Extractor**

**ActPak  
Compost Tea  
Activator**

**Revolutionary  
High Quality  
Compost Tea**

**TE 500**

## **Aeromaster TE500 Compost Tea Extractor**

- Extracts billions of highly diverse beneficial microbes, humic substances, enzymes and other microbial by-products and soluble nutrients
- A stable, aerobic shelf life of up to 1 month
- Produce up to 50,000 litres of compost tea per day
- Improve soil and plant health and reduce disease in all crops, vineyards, orchards, pastures, turf and gardens
- Build soil structure, reduce water loss, feed and multiply native and introduced soil biology
- Applied to seeds, roots, foliage and soil - through boomspray, boomless jet, fertigation and liquid in-furrow injection

**ACTPAK**

## **ActPak Extracted and Brewed Compost Tea Activator**

- Scientifically formulated to promote optimal growth and diversity in compost tea
- Stimulates microbes to reproduce and multiply whether or not they have a food source
- Multiplying microbial diversity ensures the plant is protected and fed from the top of the leaf to the tip of the root
- ActPak harnesses the power of nature in the paddock and in the greenhouse
- For best results vigorously incorporate ActPak to extracted tea just prior to application
- Vibrant and flourishing plants come from a soil teaming with life – ActPak helps achieve this
