

Recently released certified organic products for retail

THE " FIRST RAY" indicates regeneration – and **First Ray iced teas** are a wonderful way to regenerate during hot summer days. First Ray has recently become the exclusive importer of these biodynamic and Fairtrade certified delicacies, offering such exotic flavours as Darjeeling Cherry, Oolong Elderflower and Chai Orange. Another First Ray range to tempt the discerning palate is the Fiordelisi antipasta selection of marinated select vegetables.

Increasing public focus on the ingredients that go into those most personal products, skin care and cosmetics, encourages any manufacturer who can present truly clean, green alternatives. **Pure & Green Organics** have achieved a world first in the skincare/ cosmetics world. Every product in the recently launched range is ACO Certified Organic; face, body, dental and hair care!

Rafferty's Garden, "planted" to provide babies with organic food right through the early years, have made it into the finals of the Women's Weekly Product of the Year 2009 Award with a new range of spout-

packaged smooth foods for babies. Littlies can cultivate their palates on such delights as Blueberries, Bananas and Apple as well as Spinach, Apple, Broccoli and Pea. Still in the pipeline – Rafferty's books, clothes and TV show.

Supermums need superfoods – enter **Synergy Natural's Super Greens**, a blend of the four most nutrient-dense green superfoods on the planet. Spirulina, Chlorella, Barley Grass and Wheat Grass, are packed with an astounding array of vitamins, macrominerals, trace minerals, essential fatty acids, anti-oxidants, protein, chlorophyll and phytonutrients. They are thought to contain every nutrient required by the human body - not only mums.

The sensuality of scents is more wonderful when created traditionally using organic botanical extracts, absolutes and essential oils. The riches of the plant are used to create a new range of six Botanical Perfumes from **Miessence**; flowers, fruits, blossoms, leaves, twigs, barks, resins, woods, roots, rhizomes and seeds create perfumes for every mood.

The little tin with a **Big Mission**
